forest foray

CAN YOU FIND?

walk down a country road in midsummer
BRING: SKETCHBOOK, GRAPHITE & COLORED PENCILS

Find a quiet country road and go for a walk (about 5-20 minutes). Take your time. Cast your gaze up and over you. Turn your eyes to the road where you walk and the ground on either side of you. Take a deep breath, and then another. Then find a place to sit.

Start to notice the plants around you: size, species variety, prominent colors, repetitive shapes. Describe in writing or drawing some of the aspects that stand out most to you:

Look around you for the largest tree in this landscape. If you can, get close and examine the bark, the leaves, the twigs. Describe, in writing or drawing, two main features of this tree:

Draw the whole tree, or as much of it as you can see:

Identify this tree with both common and scientific names:
