

forest foray

CAN YOU FIND?

walk down a country road in midsummer

BRING: PAPER, GRAPHITE & COLORED PENCILS

Notice all the different shades of green, yellow, and brown. Take out your colored pencils and try to replicate 5 colors you see.

Now, look around for other colors. Can you spot a pink or purple on some part of a plant? Draw what you see:

How many kinds of trees do you see? Draw two different types of leaf:

What is the largest tree you can see? Using either words or drawing, describe this tree. If you know what this tree is called, include the name:

INTRODUCTORY

forest foray

CAN YOU FIND?

walk down a country road in midsummer

What kind of road are you walking down? What kind of land is around you and how does it feel?

Can you see any vines in the forest? If so, are they growing on the ground or up trees?

Do you see any flowers? List or draw what you see:

Are there mostly deciduous or evergreen trees on this road? Do the trees change dramatically from one section of road to another?

Did you see anything that surprised you?
