

Help us recruit!

In the next week or so, the New England Regional Office of the United States Environmental Protection Agency (EPA) will advertise approximately 7 Student Intern vacancies, at the GS-4 level, for environmental engineers/scientists, legal, I.T., and EPS positions on [USAjobs.gov](https://www.usajobs.gov).

Interns will work with senior staff such as, engineers, scientists, and administrative staff focusing on environmental issues and regulatory requirements dealing with air, land, water, and public health. Gain vital experience while contributing to our agency's mission. Students will be required to work 16-20 hours during school and up to full time hours during breaks and summer.

These positions require excellent oral and written communication skills, ability to work in a team, and collaborate with internal and external partners and skills at finding information resources.

To qualify as a student intern, you must be:

- U.S. citizen;
- Current student seeking a degree (bachelors, graduate) on a full or half-time basis and have completed at least two full academic years of post-high school study.
- Available to work 16-20 hours per week, year-round;
- Passionate about the environment; and
- Highly motivated self-starter who is interested in working as a student intern through graduation*
- Student Interns may be converted non-competitively to a permanent position in the competitive service if they successfully complete the Pathways program, complete 640 hours of work experience, complete their educational requirements and are favorably recommended for conversion by their supervisor.

Please help us recruit for these positions by sharing this information with eligible students. Please encourage students to register on [USAjobs.gov](https://www.usajobs.gov) and create a profile. Also, please encourage students to set up their notification preferences in [USAjobs.gov](https://www.usajobs.gov), so they will be notified when the vacancy is open.

Thanks for your assistance!
